Table Sorting in  
Major Canadian  
Cities

## MAJOR CANADIAN CITIES: COMPARED AND RANKED

Grey House Publishing Canada has added a new database to the Canada Information Resource Centre (CIRC) platform which is already widely available in libraries, colleges and universities across Canada. This highly accessible statistical resource provides the user with numerous ways to rank and compare 50 major cities across Canada.

All statistical information is at your fingertips; with just a click of your mouse you can access percentages for 50 cities with a population of 100,000 or more. You can instantly rank cities according to your preferences and make your own analytical tables with the data provided. There are hundreds of questions that these ranking tables will answer: Which cities have the youngest population? Where is the economic growth the strongest? Which cities have the best labour statistics? etc. Contact us today for more information on this brand new database!

## THE HISTORY OF CANADA

**Pub. Date: November 2010**  
**500 pages / Second Edition**

**Hardcover / \$165.00**  
**ISBN 978-1-59237-610-0**

 **e-Book 978-1-59237-611-7**

This beautifully written narrative history paints a magnificent picture of the second largest nation on earth. Canada, with its overarching geography of many bodies of water, endless prairies, frozen reaches of the north and awe-inspiring mountain ranges, has a truly complex and intricate image.

- Last published in 2001 by Greenwood Press, this newest edition has been extensively updated with a new chapter covering Contemporary Canada from 2001 to 2010, new expanded Front Matter with four-colour maps, flags, Prime Minister and Governor General photos and a new Primary Documents section.
- Since its earliest settlement by the French and the British and its struggle as an arena between those contesting empires, Canada has been a centre for disagreement and debate. The political struggles of the past and present and the clash over issues of ethnicity, race, religion, language and culture are just some of the details that mark this country's unmatched uniqueness.

- From the earliest contact between Amerindians and Europeans to the current burden of regional, cultural and ethnic diversity that characterizes Canada, this history draws the reader into the drama that is Canada.
- This work further examines the economic, political and ethnic issues of contemporary Canada, including its participation in world affairs.
- Biographies of notable people in Canadian history, a list of all the Prime Ministers of Canada, an updated Timeline of important events, and a Bibliographic Essay of recommended books and websites add reference value to this engagingly written history.
- Informative Appendices and a Cumulative Index complete the work.
- Available in print, e-Book and online database format

This up-to-date second edition is a must for all Canadian reference collections and will be an important resource for US reference collections that require information on Canada's impressive history.

## SALEM PRESS: LITERARY TITLES

### CRITICAL INSIGHTS SERIES

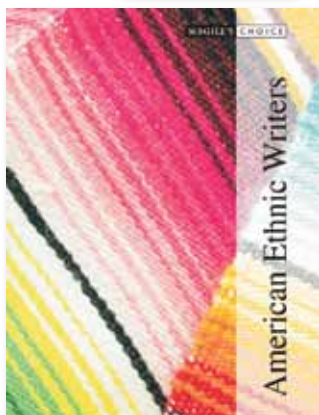

Salem's *Critical Insights* series distills the best of both classic and current literary criticism of the world's most-studied literature. The series focuses on an individual author's entire body of work, on single works of literature and on the 10 most-studied literary themes. Scholars from around the world collected terrific material to explicate these subject areas. *Critical Insights* provide authoritative, in-depth scholarship suitable for students and teachers alike. Whether studying the works of Margaret Atwood, discussing ideas of dystopia in literature or looking for essays on a specific work of literature, such as *The Catcher in the Rye*, this series can be used to answer questions and to help facilitate exciting discussions. A great resource for any literary studies profession as well as private, school or public libraries.

### CRITICAL SURVEY SERIES

This series offers in-depth, analytical reference guides that cover the major writers of world literature. Divided into several subsections that look at short fiction, long fiction, poetry, graphic novels and many more, each compendium offers a wide range of criticisms on a variety of subjects. With 678 long fiction writer profiles, 845 poets covered and 130 essays on graphic novels, the *Critical Survey* series is extremely detailed and offers an insight into literature that is unparalleled. A variety of topics-ranging from political novelists to war poets- is organized so libraries can select only the topics they want. Subsets are arranged alphabetically with each writer only appearing in one subset. Entries contain full data on dates and places of birth and death, achievements, a biography and an analysis section which discusses style and themes. A great resource for any literary studies profession as well as private, school or public libraries.
