

Health Guide Canada 2020-2021 is the fourth edition of the most extensive fact-finder on chronic and mental illnesses, relevant associations and resources in Canada. This essential health resource offers a comprehensive overview of 107 chronic and mental illnesses, from Addison's to Wilson's disease.

This biennial volume contains over **5,000 detailed listings** of health care-related associations, agencies, organizations and publications, including new illness profiles and thousands of updated organizations and contacts.

In *Health Guide Canada*, you will also find all-new reports and/or articles focused on the current state of the Canadian health industry, appendices on various support services—e.g. children's hospitals, mental health facilities and homeopathic medicine facilities—and resources and statistics linked to the prevalence of different illnesses particularly those relevant to indigenous groups in Canada

Use *Health Guide Canada* to reduce stress and find answers to dilemmas such as:

- How Can I connect with others who have diabetes?
- What Cancer treatment is best for me?
- What genetic disorders could my child be at risk of inheriting?
- How can I better access public health programs through digital technology?

Statistics

A variety of relevant statistics and charts

Health Guide Canada 2020-2021 is the fourth edition of the most extensive fact-finder on chronic and mental illnesses, relevant associations, and resources in Canada. This essential health resource offers a comprehensive overview of 106 chronic and mental illnesses, from Addison's to Wilson's disease.

This title provides invaluable health resources related to specific illnesses. Inside, you'll find these categories:

- Illness Description
- Libraries
- Associations
- Resource Centres
- Publications
- Educational Facilities
- Government Agencies
- Hospitals

Health Guide Canada is organized into the following categories:

- **Chronic & Mental Illness:** Covers 106 chronic or mental illnesses arranged alphabetically, including brief descriptions, probable causes, symptoms, prevalence and treatment options, followed by resource listings.
- **General Resources:** Comprised of resources related to the health industry in general rather than to a specific illness.
- **Appendices:** Provides information on charitable foundations related to the chronically or terminally ill, death and bereavement support services, homeopathic medicine facilities, indigenous issues, and sports for the disabled.
- **Statistics:** Lists statistical data pulled from the Fraser Institute and Statistics Canada; breaks down numbers of people with different illnesses in Canada, health program performances and wait times for different procedures.

All listings include the name of the organization or publication, complete contact information including website and social media links and executives, as available. The Entry Name Index will provide another means of finding targeted information quickly.

With **Health Guide Canada**, you get the information you need, right at your fingertips!
